GREECE ORDERS HER ARMY TO THE FRONT

Determined to Meet Every Move of Bulgaria, Athens Dispatches Indicate Early War in Balkans.

(By Evening Herald Leased Wire) Athens, Sept. 24 (via London, 2 p. m.)—A decree for general mobilization of twenty classes of Greek soldiers was signed last night by King Constantine and promulgated.

The decision of the king has aroused the greatest enthusiasm. Assurance of the mobilization decree came quickly after the king had granted an audience to Premier Venizelos.

The premier informed the king that mobilization was the only possible reply to Bulgaria's move. To this the monarch agreed, stipulating that it should be regarded as a defensive measure.

The twenty classes now called to the colors are in addition to four classes already under arms.

Sofia, Sept. 24 (via London, 2 p. m.)—Although a partial mobilization of the Bulgarian army has been announced, it is not imminent. It is now reported that the reserves of the army are being called up.

At the outbreak of the war, the Bulgarian army was divided into two main groups, one in the north and one in the south.

The Bulgarian army in the north is now being retrained by the Austrians, who are anxious to break the Russian drive.

Aid for Loan Is Aid to Enemies of Germany

Committee Representing Chief Industrial Establishments of Berlin Issues Protest to German Bankers in America

(By Evening Herald Leased Wire) Berlin, Sept. 24 (by wireless to Saxville)—The Overseas News Agency says today:

The committee representing a combination of the largest industrial associations has published a statement dealing with reports from New York that banks which have London connections with German houses intend to participate in the Anglo-French loan which is being raised in the United States.

There is no room for doubt that German industrial and mercantile circles would regard direct or indirect participation in the loan as intentional support of our enemy.

It states that it is the natural and honorable duty of German firms doing an American business to break off all connections with the loan.

ENGLAND MOVES TO RELEASE GREAT QUANTITIES OF MERCHANDISE OWNED HERE

British Government Prepared to Receive Applications From State Department After Long Negotiations.

GOODS VALUED AT \$167,000,000 HELD

Diplomacy Gains Another Victory for American Merchants Who Faced Huge Losses.

(By Evening Herald Leased Wire) Washington, Sept. 24.—The British government is prepared to receive applications unofficially through the foreign trade advisers of the state department for release of \$167,000,000 worth of American-owned goods of German and Austrian origin held at Rotterdam by the British orders in council.

At the request of the trade advisers the British embassy here will submit a written statement of the conditions under which goods will be released.

Negotiations have been in progress for months unofficially seeking release of the vast quantity of merchandise consigned to American exporters and already either paid for or contracted for under agreements which made the American buyers liable for payment.

On June 15 the British government refused to receive further official representations through the trade advisers.

Since then the pressure on the state department has been heavy. American importers asserting that without release of the goods in question they would not be able to meet their obligations to American exporters.

They had contracted for these goods in some cases had already paid for them and in all cases were liable for the purchase money.

Some time ago information reached the state department that private attorneys in London were securing permits for release of goods held up at Rotterdam, while unofficial efforts of the trade advisers to get similar permits from the British government were made seeking some preliminary release of goods.

In reply the state department has been unable to allow the trade advisers to make application and submit proof for permits direct to the embassy here.

AMERICAN SOLDIER SHOT DOWN AT BORDER BY A CARRANZA RAIDER

Private Stubblefield Victim of Unexplained Attack This Morning Near Progress; Battle Still Raging.

VILLA DOES NOT THINK PRESIDENT WILL DO IT

Expresses Belief, After Conference With His Captains That United States Will Not Consent to Carranza.

(By Evening Herald Leased Wire) Brownsville, Sept. 24.—American troops and a large band of Mexican raiders reported today at Progress, with the Mexicans retreating under fire and the American pushing them toward the Rio Grande, a mile distant. One American soldier, Private Stubblefield of Troop B, 12th United States Cavalry, was killed and two others were reported wounded. The Mexican casualties have not been ascertained.

One troop of the 12th cavalry and a large detachment of the 26th infantry were engaged in the night, which began early today.

Lieutenant Payne, in charge of the infantry detachment, reported by telephone to Brownsville at 10 a. m. that the fighting still was in progress and that several of the Mexicans had been killed.

The Mexicans approached from the direction of the Rio Grande, one mile distant from the border. The American detachment was camped in front of a house. The Mexicans opened fire from the shelter of the walls.

Private Stubblefield fell at the first volley.

Captain A. V. Anderson of Troop B, 12th cavalry, who was in the vicinity of the fighting, said that Progress where he is reported to have received a slight wound.

Lieutenant Clark A. King, Jr., who was in command of a detachment of eight men from the 26th infantry which went from Mercedes to the aid of the troops at Progress, reported by telephone to Fort Brown that only ten men were comprised the patrol stationed at Progress. Three were involved in the fighting.

Eight of these had gone to the river, more than a mile away and on returning shortly after 5 o'clock heard the firing. When they arrived at Progress they found Private Stubblefield dead, and his comrade, Private Kennedy, wounded.

Lieutenant Clark reported that there were from twenty to thirty Mexicans in the attacking party.

Colonel A. P. Hays, commanding at Fort Brown, says there are authentic reports at Fort Brown and the vicinity of the fighting to dominate the situation with little trouble.

It is not known how many Mexicans were killed but various reports say from ten to thirty. An additional company of infantry reached Progress shortly before noon from Mercedes.

Five VILLA PARTIS WARNED TO KEEP OUT

El Paso, Tex., Sept. 24.—Five members of General Villa's staff were stopped at the international bridge today by the military authorities.

Dispatches from Villa sources along the border also reported that General Jose Santos, with 500 men, had revolted against Carranza near Mercedes.

A raid on Carranza, Sotera, by bandits, who drove out the civil authorities, was reported in a state department dispatch which added, however, that Carranza troops had re-occupied the town yesterday.

EXPECTS RELEASE OF FULLER BY SATURDAY

El Paso, Tex., Sept. 24.—C. H. Fuller, of Los Angeles, who arrived Thursday night in El Paso, stated today that he expected his brother, E. P. Fuller, now held by Mexican bandits south of Juarez, to be released and back in El Paso by Saturday morning.

He would not discuss plans for securing the release of his brother. The brother was captured last Friday on a ranch near Villa Ahumada, Chihuahua, by bandits. Men with money for his release are reported as having gone south to negotiate with the bandits.

Twelve Pounds of Dynamite in Mail Sack

New York Postal Authorities Shocked by Contents of Package Sent to Foreign Postoffice From California.

(By Evening Herald Leased Wire) New York, Sept. 24.—Eight sticks of dynamite, weighing 12 pounds were found in a package in the foreign branch postoffice here today. The package was mailed at Napa Junction, Cal., September 7 and arrived here September 7, being sent to the foreign branch office.

Postal authorities said the package was addressed to Mr. Virginia Roscoe, P. O. Cova, Italy, and the name of the sender was given as Luigi Ghioffi of Napa Junction.

The package containing the dynamite received much handling during its transit across the continent, being transferred to and from various mail bags. On receipt at the Grand Central terminal it was shot down a long chute and must have struck the bottom with considerable force. The failure to explode is explained by the heavy wrappings of newspapers.

There was an outer cover of heavy mail paper. Next to this was a heavy layer of newspapers inside of which was a large cigar box. An Italian atomic, bearing a portrait of President Wilson, was stuffed in one end of the box while two cloth bags each held four sticks of dynamite. The powder was 65 per cent and of the type used for blasting in mines.

The package was held for insufficient postage but postal authorities have been unable to locate a Luigi Ghioffi at Napa Junction.

It is stated that if they crossed to American soil they would be captured.

In answer they stated that they had resigned from the Villa army and were crossing to operate a ranch near El Paso. It was indicated in their explanations which secured them entry that General Angeles himself would not return to Mexico. General Angeles is now in Washington.

The members of Angeles' staff brought with them household effects and stock.

RAUL MADERO ARRESTED NEAR MARFA BY SOLDIERS

San Antonio, Tex., Sept. 24.—General Angeles' staff, which has been arrested by American soldiers near Marfa, Texas, Major General Frederick Funston received this report from Marfa today. With Madero were eight companions, all supposed to be Villa officers who also were arrested. They were taken in custody when they crossed to the American side of the Rio Grande.

VILLA DOES NOT THINK PRESIDENT WILL DO IT

Washington, Sept. 24.—The Villa agency here today made public the following statement issued at Juarez after a conference between Villa and his military chiefs, relative to the possible recognition of Carranza by the Pan-American conference.

"We do not believe President Wilson can be persuaded to take this step, as such would signify recognition of a military dictatorship or despotism, without courts or other of those public institutions de facto government are required to have under American precedents, to justify recognition. Carranza has never proclaimed any government, assuming all powers thereof himself, while Villa, on the other hand, demands and is fighting for the restoration of constitutional government."

Villa advisers say an objective movement against Carranza is imminent in Vera Cruz and adjoining states.

Dispatches from Villa sources along the border also reported that General Jose Santos, with 500 men, had revolted against Carranza near Mercedes.

A raid on Carranza, Sotera, by bandits, who drove out the civil authorities, was reported in a state department dispatch which added, however, that Carranza troops had re-occupied the town yesterday.

HALF A MILLION ARMENIANS HAVE BEEN PUT TO DEATH BY TURKS

Authentic Report to Armenian Association Heads Declares Massacres Amount to Annihilation of a Nation.

ATROCITIES PAST ALL HUMAN UNDERSTANDING

"Christian Martyrdom at No Time Assumed Such Colossal Proportions," Says Official Communication.

(By Evening Herald Leased Wire) New York, Sept. 24.—Dr. M. Hymen Gabriel, president of the Armenian general progressive association in the United States has received from Nubar Pasha, diplomatic representative in Paris of the Katholikos or head of the Armenian church, advice in regard to the massacres of Armenians in Turkey, in which it is stated that Christian martyrdom has at no time assumed such colossal proportions.

The letters contain an appeal to the United States to interpose and stop the persecutions.

Dr. Gabriel said that from information contained in the letters and from other reports he had received, he estimated that 400,000 Armenians had been put to death and 500,000 rendered homeless or exiled out of a population of 1,500,000.

"What has occurred in a few months in Cilicia and Armenia," wrote Nubar Pasha in transmitting the correspondence, "is unbelievable. The great massacres of Abid Hamid seem insignificant compared to the recent atrocities which are without precedent in the history of our nation's martyrdom. It is nothing more or less than the annihilation of the whole people. But Armenia is so far away that practically nothing has yet been heard about this frightful tragedy in Europe and America."

A letter from the Constantinople source says that Armenians in all 17 cities and villages of the province of Cilicia have been deported en masse to the desert regions south of Aleppo.

"Moslems have occupied the lands and houses abandoned by the Armenians," the letter reads.

"Persons from 20 to 45 are at the front. Those from 45 to 60 are employed in the military convoys. As to those who have paid the required sums for exemption from military service, they have been either exiled or imprisoned on some pretext. So the need, the women and the children only are deported."

"If the central powers, especially the United States, do not intercede at once there will remain very few of the million and a half Christian Armenians in the Turkish empire. Christian martyrdom has at no time assumed such colossal proportions."

A letter from the Athens source says:

"The city of Beirut after having been evacuated by its Armenian population has been peacefully occupied by Turkish families and not by military authorities. The whole of the Armenian inhabitants have been sent away, turned out of their homes and are suffering from hunger. The exposure is something that cannot be described."

AMERICANS READY TO BRING ARMENIANS HERE

Washington, Sept. 24.—Several American philanthropists have signified a willingness to provide funds for bringing to this country persecuted Armenians in the far east who desire to emigrate, according to information that has reached the state department from the American board of foreign missions.

Department officials said none of the names of those willing to contribute had been disclosed and that no general Armenian emigration was contemplated. The philanthropists merely suggested the might aid relatively small numbers of Armenians in this country whose lives are in danger.

What the attitude of the Turkish government might be toward such a movement has not been disclosed and the department will make no inquiries until more definite details of the plan are available.

Embassador Morgenthau today was instructed to investigate rumors that American missionaries had been killed in recent Turkish military operations against the Armenians.

Jackson, Ga., Sept. 24.—Joe Parsons, a negro boy not much more than 14 years old, was hanged here today for assaulting an eight year old girl. To the boy's hundred persons around the scaffold the boy admitted he committed the crime and solemnly announced he was ready to die. Although he weighed only 75 pounds, his neck was broken by the fall.
